

Refreshed logo, new website & new brochures just in time for PackExpo

We are excited to announce that we just completed a refresh of all of our marketing related materials. We are excited about our new appearance and want to share this with you. Our completely new website launched today. It contains all new links, photos, details and brochures. We contracted with Lockquell Productions, Inc. a graphic design company located in Montreal for this effort. What you will see is the culmination of over six months of concentrated efforts.

We hope you will share in our excitement and take this opportunity to browse our new website.

PackExpo, Chicago, IL, October 2012

To see more of our new look make certain you visit with us Booth N-3813 Our display will include all new graphics We will be packaging CDs with a complete catalog of our newest brochures on our recently introduced FAB4-1012 fully automatic four-station rotary blister sealing machine. Make certain you pick up a blister packaged copy of our latest information.

While you are visiting with us please take a tour of our latest machine designs and features.

For the first time in Starview's history at PACKEXPO INTERNATIONAL 2012 we will be using actual products to demonstrate a completely custom FAB8-1418 with special infeed conveyor for delivery to the customer directly after the show. The collaborative efforts of Pure Fishing, a subsidiary of Jarden Corporation, MWV and Starview will give visitors an insight into a real product being packaged using Natralock® from MWV; the latest technology in sustainable/secure packaging, and a fully automated Starview packaging system. The machine will run continuously during the show and finished package samples will be available.

Starview's booth will also include our SB1-1418 single station manual shuttle blister packaging machine, the newest generation ERB6-1418 Six-station Semi-automatic rotary blister packaging machine, a MRTS-1418 manual rotary food tray sealing machine, a MR/PH2-1824 manual rotary medical device packaging machine and our SP-1824 impulse heating skin packing machine.

All of our machines will be running packages that attendees may take as samples.
