

STARVIEW™

IF SERIES FULLY AUTOMATIC INLINE VACUUM FORMERS

Standard IF Series Automatic Vacuum Forming Machine

- ★ Complete PLC machine control with Touch screen operator interface
- ★ Fully automatic, roll fed with adjustable guillotine sheet cut-off
- ★ High efficiency radiant panel heating elements for maximum heat to film while conserving energy
- ★ Heater oven zoned for uniform heating of film
- ★ Single-stage inline heater oven to decrease cycle times
- ★ High powered cooling blower and water-cooled mold plate to reduce process time
- ★ Plug/Grid assist standard

Description

Starview's IF Series automatic vacuum formers are designed for medium to higher run thermoforming applications. The IF machines will form most common materials such as PVC, PET, Polystyrene, ABS, etc. The IF Series is offered with a standard form area 25" x 40" as well as custom sizes to meet customer requirements. These machines can increase production up to 80% over typical single moveable oven type vacuum formers. Features such as Plug/grid assist, Male/female mold capability and inline preheat systems increase the versatility of this machine.

Starview's IF Series automatic vacuum formers can be equipped with optional features such as a sandwich (upper and lower) heater system operated dependently or independently above and below the film. Additional zones of heating may also be ordered for improved control of sheet heating.

SPECIFICATIONS

Model	IF-2540
Forming Area:	25" x 40"
Roll or sheet fed:	Standard
Adj. form width:	Standard 25" down to 20"
Adj. film index:	Standard 40" down to 20"
Cooling blowers:	Standard
Vacuum pump:	Standard
Water cooled base:	Standard
Plug/Grid assist:	Standard
Upper/lower oven:	Optional
Avg. cycle speed:	1-8 cpm w/upper oven & 1-12 w/upper and lower ovens
Max. form height:	4"
Approximate size:	226W x 85D x 85"H
Approximate wt:	4,500 LB.
