

STARVIEW™

MS/PH SERIES SHUTTLE TYPE MEDICAL & PHARMACEUTICAL PACKAGING MACHINES

MS/PH2-2436 (LH) and MS/PH1-1824 with optional light tower (RH).

- ★ One & two-station models available
- ★ Ideal for medium volume medical and pharmaceutical packaging
- ★ Process controls for validation
- ★ High-pressure sealing presses for consistent results with Tyvek lidstock
- ★ Epoxy and stainless steel utilized for clean room applications
- ★ Heavy-duty Industrial design for long life

Description

Starview's MS/PH Series one and two-station large format floor model shuttle type heat sealers are designed for medium volume production requirements. These machines are specifically designed for medical applications using foils, medical kraft, Tyvek and other heat sealable lidstock. These high quality machines are ideal for start up companies, back up equipment, cellular production lines or low volume in-house packaging. These machines are one or two operator shuttle type sealers utilizing quick-change sealing fixtures.

Starview's MS/PH Series machines have process controls for validation including in PLC temperature and pressure controls with high and low user adjustable alarms. All timer settings are accessed through the color HMI and are highly repeatable. PLC memory includes a recall of the last 99 sealing cycles and data storage for up to 99 recipes.
