- ★ **AC Variable frequency/precision cam index table drive**
- ★ **Excellent for contract packagers, workshops and OEM's**
- ★ **PLC machine control with simple knob and dial operator interface**
- ★ **Heavy-duty Industrial design for long life**

Description

Starview's RB Series rotary type heat sealers are designed for medium to higher volume production requirements where an economical but simple to operate machine is required. These machines may be used for conventional carded blisters, full face blisters as well as applications using Tyvek, foils and other heat sealable lidstock. The RB Series units are available as four (4) station models with a 14" x 18" sealing area and six (6) station models with a 12" x 14" sealing area. The standard machines feature one sealing station with the remaining stations used for load/unload stations.

Optional features for **Starview's RB Series** include casters for portability and an electronic cycle counter to record production volumes.
